

## TES PLUS 16-19MM (5/8"-6/8") BATTERY STRAPPING TOOL PET/PP STRAP INCL. 2 BATTERIES & CHARGER

- **Affordable price**
- Very strong - tension force up to **4000N**
- For **heavy-duty strapping**
- 2x batteries + charger
- **high-grade friction weld seal**
- Strap thickness: **5 - 1.2 mm**
- Strap width: from **16mm to 19 mm**

- **Affordable price**

- Strap width: from **16mm to 19 mm**

## TES PLUS 16-19MM (5/8"-6/8") BATTERY STRAPPING TOOL PET/PP STRAP INCL. 2 BATTERIES & CHARGER

Battery strapping tool TES Plus 16-19mm is a durable, affordable, lightweight, and powerful tool to

have around. It's designed to be used with one hand, the bander is highly customizable and can be ordered to fit **16-19mm or 5/8" to 6/8"** wide **polyester (PET) or polypropylene (PP) strapping**. The strapping tension is customizable and can be set from **60 to 4000N (13.5 to 900 lbs)**. This tool also is designed to deliver a high-grade friction weld seal that has an average seal strength of up to 75%. This battery strapping tool comes with **2 batteries** and a **charger** so you are able to get your bundling process started as soon as the package arrives. The additional 12-volt battery allows for continuous working when one is charging, resulting in zero downtime. The maneuverability and ease of operation with this battery strapping tool will allow you to use it for vertical and horizontal strapping.

**WHAT IS THE PRICE OF A**

### **BATTERY STRAPPING TOOL?**

Battery strapping tool TES Plus is one of the cheapest battery strapping tools out there. However, the price does not reflect on the quality. Despite it being affordable, the banding tool is made out of high-quality hard plastic and it has implemented the latest welding technology. Additionally, it has a digital display and it comes with two batteries.

### **WHERE TO USE THE BATTERY STRAPPING TOOL?**

Battery strapping tool TES Plus 16-19mm is widely used in the paper, aluminum, textile, steel, logistics, farm, chemical, metal industries. Battery strapping tool TES Plus has a lightweight body and it is easy to use. The strapping machine doesn't use fasteners but instead uses friction hot melt. The strapping device is beautiful and strong. With a battery strapping tool, you will automate operations and speed up packing activities. TES Plus has a high degree of automation, simple operation and it is easy to understand. The body of the battery strapping machine is made of high-strength alloy materials and engineering plastics, which are durable in use. The strapping machine is easy to move and can be used on various sizes of packages.

## SPECIFICATION OF BATTERY BANDING TOOL TES PLUS:

Usage:	Battery strapping tool TES Plus 16-19mm is widely used in the paper, aluminum, textile, steel, logistics, farm, chemical, metal industries.
Size of the strapping tool:	350 x 135 x 170 mm
Weight:	4,3 kg
Features:	<ol style="list-style-type: none"> <li>1. Lightweight body and easy to use.</li> <li>2. Without fasteners, using friction hot melt, the interface is beautiful and strong.</li> <li>3. High degree of automation, simple operation and easy to understand.</li> <li>4. Easy to move, for a variety of venues, the various size of the package can be applied.</li> <li>5. The body and components are made of high-strength alloy materials and engineering plastics, which is durable in use.</li> <li>6. High safety performance.</li> </ol>
Strap width:	from 16 to 19 mm
Strap thickness:	0.5 - 1.2 mm
Apply straps:	PET and PP strap
Seal:	high-grade friction weld seal
Maximum tension force:	60-4000N
Battery:	Two batteries per set ( 14.8V-4000mAh 59.2Wh )
Charger:	110 - 240V - 50-60Hz DC12.6V=4,0Ah
Charging time:	90 minutes - 150 and 220 seals

## HOW DOES THE BATTERY STRAPPING TOOL WORK?

The ergonomic and rugged design of this friction weld battery-powered hand strapping tool helps maximum operator comfort. Easy to operate, the single-handed operation allows for flexibility during use. A single thumb pressing operates the tool, with tensioning sealing and cutting done at the touch of the start button. Adjustable strapping adjustable sealing time allows individual settings for different strap types and quality to guarantee high efficiency. Strap tension adjustment can be easily done by the simple turn of a dial. The appropriate tension ensures ideal load security. Complete with a 14.4V Li-ion battery with 90 minute recharging time. The battery lasts for up to 220 seals. The battery strapping tool is built to last and to withstand the usage in factory or warehouses. The tool has a 12-month warranty.
